

BULLET® CABLE PROTECTOR

WINKLE

The Bullet® cable protection system prevents abrasions, nicks, cuts and heavy impacts that cause premature electrical failures to lifting magnets and magnet system components.

RELIABLE

The Bullet® is engineered and developed for simple attachment and maximum cable flexibility for a full range of magnet power cables, ensuring reliable operation and optimum protection.

DURABLE

Each Bullet® is molded in a high-density polymer material engineered and analyzed to resist environmental factors such as UV degradation and extreme hot and cold conditions, ensuring durability and extended service-life.

Reduce Magnet Lead Repairs and Replacements.

Minimize Premature Lifting Magnet Failures.

Prevent Premature Damage to Magnet System Components.

Protect Machine's Main Electrical System From Damage.

THE PERFECT COMBO

THE BULLET CABLE PROTECTOR & THE APOLLO CABLE RESTRAINT SYSTEM.

The apollo cable restraint system clamps magnet power cables beneath the connections to reduce the weight and tension applied to electrical connections. The strain relief also acts as a security device in the event a magnet power cable is snagged.
